Case – Independence Gear

- ❁ Started out testing with innovation department at Sunnaas Hospital in their home market
- ❁ Scaled user test to VihTek in Copenhagen and Danderyd in Stockholm
- ❁ Launching first product to market
- ❁ Now starting to develop product number two together with users at Sunnaas hospital

“Without access to real life testing facilities at the Nordic Proof partners, we would not have products in the market, says Carl Christian Sole Semb in the Norwegian med-tech company Independence Gear”

Case – Rabmed – conducting a market study

- ❁ Early phase prototype of needle-free connector for glass ampoules
- ❁ Designed an interview guide together with Nordic Proof
- ❁ Conducting one day on-site interview with health professionals
 - ❁ Helsinki
 - ❁ Stockholm
 - ❁ Oslo
- ❁ Each test facility wrote a sum up report from the interview
- ❁ The company got important feedback for their further development process and market strategy

“We came in selling the product as if we were doing a sales pitch. We soon realized that the meetings were most valuable to us if we sat back and allowed them to be brutally honest - almost prompting their most critical feedback”
