

# Sunnaas Rehabilitation hospital

A smiling woman with blonde hair tied back, wearing a blue polo shirt, is the central focus of the image. She is looking towards the camera. In the background, there are blurred figures of other people in a clinical or hospital setting, including a person in a green scrub top and another in a blue shirt. The background is bright and out of focus, suggesting an indoor environment with large windows and greenery.

## **Core competence**

- Movement
- Cognition
- Patient safety
- Gamification/VR/Robotics
- Technology & e-health

## **Testbedservices offered**

- Consulting
- Workshops and small-scale testing
- Lab testing
- Clinical trials and studies
- Multicenter studies

*User test in simulated environment*  
 Functionality, user friendliness, clinical relevance, hygiene and safety

**Workshop**

- «Reality check» of idea or prototype with clinical staff
- Important feedback in the development fase

**Research**  
 Clinical studies

*User testing in clinical environment*  
 Functionality, user friendliness, clinical relevance, hygiene and safety

# Examples technology projects

- Virtual rehabilitation (VR-lab)
- Robot assisted rehabilitation
- Mobile workflow
- Patient safety
- Movement

Thank you
